G-advisory, knowledge and experience for a sustainable present

We only have one planet, but many ways of preserving it. Aware of this, we use our knowledge and experience to help our clients find the best way to achieve sustainable activity.

Knowledge is of the essence when making decisions. At G-advisory, we make it our priority to provide clients, from startups to major corporations, with highly-specialized technical, economic and strategic advice on both energy and sustainability matters.

What sets us apart: G-advisory + Garrigues

- ▶ An **integral approach combining technical and legal aspects**. G-advisory is the consulting arm of the Garrigues Group, a leading law firm in Spain, Europe and Latin America, with top-tier professionals in each of the strategic areas of business law.
- ▶ **25+ years' experience in supporting clients** in their energy transition, sustainability and climate change decisions.
- ▶ A **close-knit team**, always on hand for clients.
- ▶ An **expert, multidisciplinary team**, from diverse technical backgrounds.

Experience in
all commercial
energy generation
technologies

150 GW+
analyzed
in renewable energies

We acted as technical
advisor on our first wind
farm project in 2000 and our
first PV plant in 2005

Pioneers in energy transition

360° advice on energy transition in relation to both supply (generation, distribution, hybridization and storage) and demand, and on all types of energy generation technologies: wind, photovoltaic, CSP, biomass, biogas, hydropower, cogeneration and waste-to-energy. We also advise on biofuels and renewable gases: biomethane, green hydrogen and bioliquids derived from waste treatment processes (pyrolysis, gasification, etc.). Our experience also extends to energy storage systems (BESS and pumped storage) and electricity transmission infrastructure.

We specialize in M&A and finance deals, offering a broad portfolio of services: technical and commercial due diligence, market studies and regulatory analysis, pool price projections, negotiation of project contracts (EPC, TSA, PPA, BPA, O&M, etc.).

Our energy expertise is coupled with extensive knowledge of all renewable technologies, energy storage, hybridization, energy efficiency and all material aspects of business plans.

Strategic energy advice

- ▶ Technical evaluation of energy technologies and suppliers (PV modules, wind turbines, boilers, biodigesters and upgrading units, solar trackers, etc.) and assessment of power plant design and BOP configuration.
- ▶ Yield estimation for wind farms, PV and CSP plants, biogas and biomethane facilities, hydropower facilities, etc.
- ▶ Renewable gases and biofuels: biomethane, green hydrogen and bioliquids deriving from waste treatment processes (pyrolysis, gasification, etc.).
- ▶ Contractual structure and conditions: turnkey contracts (EPC), O&M, PPA, BPA, CTA, etc.
- ▶ Financial projections: CAPEX and OPEX estimates.
- ▶ Revenue estimates and profitability analysis for energy storage and hybrid systems.

In-depth knowledge of regulatory environments

- ▶ Market and regulatory advice.
- ▶ Long-term pool price projections. Technology and market.
- ▶ Technology and market outlook.

treatment and integrated
water cycle sectors

Business sustainability consulting

With clients from a wide variety of sectors (primary sector, industry, energy and services), we offer a full range of services in relation to business sustainability, or ESG (environment, social & governance) as it is commonly known in the finance industry.

We have worked in environmental consulting since the very beginning, shifting our focus towards sustainability several years ago, and our specialized in-house team boasts extensive experience in this field.

We are known for our technical and strategic approach, delivering high added-value for clients. Our ability to quickly adapt to regulatory changes and sustainability trends enables us to provide the best possible service to our clients.

▶ Sustainable financing and Taxonomy

▶ ESG due diligence and advice on environmental and social matters

▶ Sustainability master plans

▶ CSRD, VSME and NFIS reporting

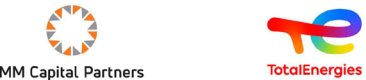

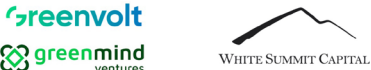

▶ Decarbonization

▶ Waste

▶ Integrated water cycle

▶ Sustainable mobility

Advisors to IDB

Trusted by our clients

Urbaser

Rafael Guinea Mairlot
General Manager of Waste

"I have had the pleasure of working with G-advisory almost since the beginning. It was great news for all those working in the environmental sector when Garrigues launched this initiative, providing a more structured approach that focuses on the risks inherent in our work. My experience with the team has always been marked by outstanding professionalism and I would particularly highlight their philosophy of telling clients how things really are, rather than what clients might want to hear, as this is the only way to improve."

Saeta Yield

Álvaro Pérez de Lema de la Mata
CEO

"G-advisory has accompanied us through the key stages of Saeta's growth, consistently acting as a benchmark technical team, providing quality, sound judgment and a global view of the business. Its work has been crucial in successfully navigating market challenges."

Ibereólica Group

Gregorio Álvarez Cabrerros
CEO

"G-advisory forms an essential part of our journey as a group, which began over 30 years ago. They have supported us with expert advice at every major milestone along the way and continue to do so today."

Acciona Energía

Fernando Rico Pérez
Head of Strategy and Corporate Development

"G-advisory has been a key advisor in Acciona Energía's M&A processes, providing technical expertise, independence, and strategic insight that have played a decisive role in the success of our transactions. Their deep knowledge of the sector and commitment to excellence have made their advice a valuable asset in our decision-making processes."

Renovalia

José Manuel Olea Avilés
CEO

"The G-advisory team has been not only a witness but also an essential partner in explaining Renovalia's growth in recent years. It brings together two qualities that, combined, are not found in any other firm in our sector. On the one hand, its technical expertise and constant effort to remain at the forefront of technical developments in our industry. On the other, its way of working and its ability to provide a comprehensive service to clients."

CaixaBank

Jesús Antonio Losa Fernández
Managing Director Lending Solutions & Transactional Banking

“Over the past 25 years, G-advisory has known how to carve out a leading position in the sector, thanks to its reputation for professionalism, built on diligence, quality, innovation, and client service.”

Iberdrola

Bosco López-Aranguren Gordillo
Global Head of Structured Finance

“For Iberdrola, G-advisory has been one of the most reliable and trusted technical consultants in our structured finance transactions. Our relationship, spanning more than 20 years, has evolved alongside the market, from our first joint transaction in 2005, to our most recent one this year in the UK.”

IDB Invest

Gian Franco Carassale
Managing Director - Cono Sur

“At IDB Invest, we value G-advisory’s commitment to excellence, the speed of their response, their ability to cover all markets across Latin America and the Caribbean and their focus on promoting best sustainability practices.”

PSP Investments

Tomás Pedraza
Senior Director - Infrastructure Investments

“I have had the pleasure of working with the G-advisory team for the last 15 years. They have made a difference with their honesty, ongoing dedication and commitment to our projects, as well as their flexibility in the face of any challenge, adapting to our needs. They have not just been our advisors but also our partners on the journey, contributing their perspective and valuable advice.”

IDB Invest

Rafael Matas Trillo

Head of the Andean Region - Infrastructure and Energy

"It has been a real honor to grow together, many thanks for your close collaboration, continued support, and technical expertise. From wind farms in Uruguay to our first water and sanitation projects in Brazil, you have demonstrated a thorough understanding of your clients' needs, of what it means to be a partner in development and to deliver what is needed at every moment; you have helped us to expand and to create an impact in the region."

Magnon Green Energy

Guillermo Negro Maguregui

CEO

"I would like to highlight our constant collaboration over the years. Their close involvement in our operations, their understanding of our needs, the speed and accuracy of their response and the human quality of the team have made G-advisory feel like another member of our team."

Sonnedix

Juan Manuel Fernández

Chief Operating Officer

"Their knowledge of the energy sector and its stakeholders, the precision of their technical and commercial analyses, their strong independence as advisors, and their unwavering dedication to clients have been fundamental for successful outcomes and sound decision-making."

Greene

Jorge Moreno Gorostizaga

CFO

"Over these 25 years, I have had the privilege of working with G-advisory on several occasions. I have witnessed their progress and commitment across the energy, water and waste sectors and to cutting-edge technologies. G-advisory has been a strategic ally, always at the forefront of technology and firmly committed to sustainable transition and to its clients."
